EXPERIENCE

LEAD DEVELOPER

Oáza Olomouc – Trezor project (part-time)

March 2025 – present

Architecture and implementation of a complex database and front-end website created for the archival of academic works. Management of small team of archivists.

Art Prompts (self-employed)

December 2019 – present

Complex project including database architecture, API and website design and development, and community management for a web application aimed at artists.

SOFTWARE ENGINEER

Citace.com, s.r.o. (part-time)

June 2023 – October 2024

Worked on productivity tools for students and academics using JS, React and PHP, including a cross-browser extension and a Word add-in. Implemented the website's localization system.

Masaryk University (part-time)

February 2022 – October 2023

Worked on the internal Information System for students and teachers using Perl, SQL, and JS. Created multiple applications for university professors.. The system is used by over 50 000 users daily.

DEVELOPER & QUALITY ASSURANCE

Freelance projects

May 2020 – January 2023

Worked on several freelance projects, including chatbots built with NodeJS and the Discord API, game testing, and web applications.

DEVELOPER & WRITER

Personal projects

February 2019 – present

Some of my personal projects include the Eledris blog about worldbuilding, the Art Prompts Android app and Discord bot, as well as several open-source Discord bots and an open-source Android app, Jots. Many of my projects are available on my GitHub profile.
